

TARTAN TEAM HANDBALL

If you do not know what Team Handball is, that is not an issue! It is a physical, contact sport played on a court. It requires throwing, catching, coordination and stamina. We like to describe it as a mix between soccer and basketball. It is also very similar to water polo.

The season runs from March to April (with a provincial's tournament at the end of May/beginning of June).

Athletes range from new to experienced players (beginners are welcome and encouraged).

3 teams are encouraged: one Senior Boys (gr 11 and 12), one Junior Boys (9 and 10) and a Girls (9-12).

One game a week, a mid-season tournament and a provincial's tournament at the end of the season are what is to be expected. Games are played at the high schools while the end of season provincial's tournament is hosted at the Fieldhouse.

The sport is not SHSAA, but the team plays as a club team running out of the school for Sask Team Handball.
